Robank Feeds

Robank Relax Equine[®]

- Robank Relax Equine[®] Pellets has been specifically formulated for horses that need a low energy, low sugar diet. It has been formulated without the cereal grains (oats, barley & corn) making it suitable for all classes of horses and ponies requiring a cool energy diet.
- Robank Relax Equine[®] Pellets are a fully fortified complete pellet, no need to add any additional vitamin or mineral supplements.
- Robank Relax Equine[®] Pellets have been formulated to avoid using high sugar ingredients, making the feed suitable for horses that are sensitive to sugar in the diet as well as horses that are insulin resistant or have Cushing's disease.
- Robank Relax Equine[®] Pellets are available in a standard pellet size or a larger cube (suitable for ponies/horses that bolt their feed, as the larger size slows down the rate of digestion) giving you the choice to suit your equine partner.

KEY FEATURES:

- Contains chelated minerals (Bioplex[®]) for superior bioavailability of organic trace minerals.
- Formulated without the cereal grains (oats, barley & corn).
- Starch level 14% maximum.
- Utilises organic selenium (Sel-plex[®]) to aid in cell protection, muscle response and optimum utilisation of vitamin E.
- Natural Vitamin E for immune and nervous system function.

INGREDIENTS:

Bran and Pollard, Copra Meal, Calcium Carbonate, Canola Meal, Molasses, Salt, Soybean Oil and Global Performance Premix.
